

# WE HAVE NEWS

Dear friends, partners and customers of the  
**UCC Magdeburg,**

Welcome to the first newsletter in 2024!

We hope you have had a successful start to the semester and are looking forward to the new opportunities and challenges this year.

This year, we at UCC Magdeburg will once again be actively supporting you in your teaching and research with our SAP teaching and learning environments. But not only that: we will be providing an outlook on exciting events and meetings at which we hope to welcome you. In this newsletter you will receive information on our new SAP Analytics Cloud case study and you will find all the dates and content for our current spring training season.

We hope you enjoy reading and, as always, we welcome your valuable feedback or follow-up questions, which you can send to [customer-relations@ucc.ovgu.de](mailto:customer-relations@ucc.ovgu.de) at any time.

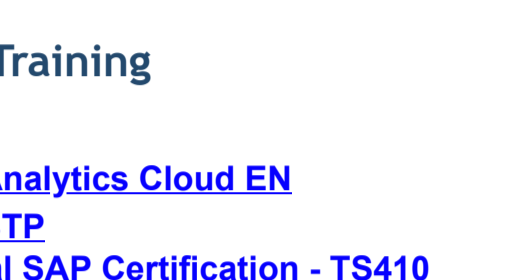

Kind regards,

Your SAP UCC Magdeburg

 Jun 18, 24 - [SAP Integrated Business Planning EN](#)  
 Sep 18, 24 - [Enterprise Online Guide@SAP Signavio](#)

## SAP TS410 - Online Training and Certification

Due to the high demand for the TS410 course at the beginning of March, we would like to inform you, that we will also be offering an English-language TS410 online course this March. This course will take place from the 18th to the 29th of March. The cost will be 628 Euros gross per participant.

The course is an intensive 10-day preparation for the exam to obtain an SAP TS410 certificate and is aimed at English-speaking students and lecturers.

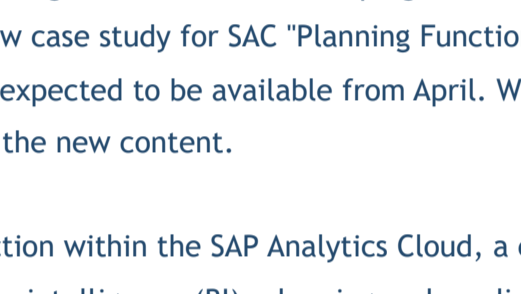

Go to registration: [Official SAP Certification - TS410 EN](#)

Please distribute this information to your students to enable them to acquire certified skills in the use of SAP business software and gain a competitive advantage in the labour market.

For quality assurance purposes, places on this online training course are limited - be quick!

## Curricula

### New SAP Analytics Cloud Case Study - "Planning Functionalities"

We are constantly working on the further developing of our teaching and learning environments. The new case study for SAC "Planning Functionalities" is currently being finalized and is expected to be available from April. We would like to inform you in advance about the new content.

SAC Planning is a function within the SAP Analytics Cloud, a cloud-based solution that combines business intelligence (BI), planning and predictive analytics in a unified platform. SAC Planning supports companies in the creation of budgets, forecasts and financial plans and enables users to interactively design both financial and operational planning processes.

The SAC Planning case study is intended to introduce basic concepts of corporate planning using the example of SAP Analytics Cloud. Using a simple example, the basic concept can be tried out with our two case studies.

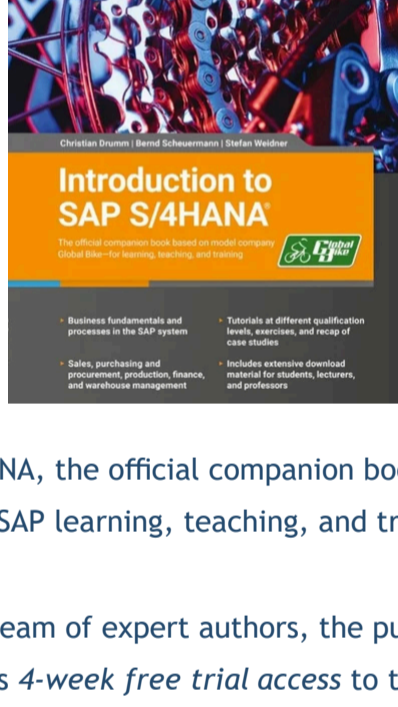

In practice, the planning model is defined with reference to an existing data model, e.g. from SAP BW or SAP Datasphere.

In the first planning case study, an Excel file is used to create a planning model. The second planning case study illustrates the planning functionalities of SAP Analytics Cloud using a story that needs to be created.

All in all, SAP Analytics Cloud Planning serves to make the planning process more efficient, transparent and accurate, by supporting a wide range of planning activities while providing high-performance analysis functions.

If you have any questions or are interested in how you can acquire this teaching and learning environment, please contact [customer-relations@ucc.ovgu.de](mailto:customer-relations@ucc.ovgu.de).

## Introduction to SAP S/4HANA - the official companion book based on model company Global Bike

Introduction to SAP S/4HANA, the official companion book based on model company Global Bike—for SAP learning, teaching, and training is now available.

In collaboration with the team of expert authors, the publishing company Espresso Tutorials offers universities *4-week free trial access* to their SAP Learning Platform.

Students and instructors will have the opportunity to access this SAP ebook and learning content for all SAP subject areas. The platform includes 800+ videos, ebooks, and learning paths.

If you are interested and for further information, please contact our partner Espresso Tutorials: [Introduction to SAP S/4HANA - Espresso Tutorials](#)

## Regional SAP UA Community Meetings Benelux and Central & Eastern Europe

In addition to the SAP Academic Community Conference in Vienna, which is aimed at the German-speaking SAP UA community, the UCC Magdeburg is supporting two other regional community conferences this year:

One will take place in Rotterdam at the Rotterdam Business School in May. Lecturers and teachers from the Benelux region will meet here for the eighth time to share their ideas and experiences of integrating SAP into teaching and research and the relevance of SAP affinity for their students.

A similar event will take place in Budapest at ELTE University in September. For the first time, the Central and Eastern European academic SAP community will meet there for a lively exchange and networking with like-minded lecturers.

UCC Magdeburg is playing an active role in the organization of these SAP UA Community Meetings. Our colleagues will be on-site to present existing and new SAP teaching and learning environments and will be available to answer any questions.

If you are interested in exchanging ideas with colleagues from your region, please register for the respective conference using the links below. You will also find further information on the events under these links. Participation is free of charge for our SAP UA partners.

We look forward to welcoming you in Rotterdam or Budapest!

## Your UCC Magdeburg

The SAP UCC Magdeburg offers technical and application support for SAP technologies in teaching and research. Our curriculum designers create corresponding comprehensive teaching materials for academic use. Our support team takes care of backup, system operation, monitoring, maintenance, and updates of SAP solutions in the UCC cloud. You can comfortably access the teaching and learning environment via the WEB, allowing you to fully concentrate on your teaching and research.

We hope you enjoyed the newsletter and are looking forward to your feedback. If you have any further questions, queries, or comments please reach out at any time by just replying to this email or writing to [customer-relations@ucc.ovgu.de](mailto:customer-relations@ucc.ovgu.de).
