

## Dear friends, partners and customers of the UCC Magdeburg,

Welcome back from the lecture-free period! We look forward to actively supporting you in the new semester in the area of SAP in your teaching. We have been busy over the summer and have some interesting news from UCC to share with you:

We are pleased to present the new training dates for the autumn training season and hope to see many of you there. The new Global Bike 4.3 is now available, and we have a new case study for SAP Analytics Cloud. We are also excited about the upcoming SAP ACC CEE Conference in Prague and the SAP EMEA Conference in Athens. Register for the conferences now - the registration links as well as all information about the new curricula can be found below in the newsletter.

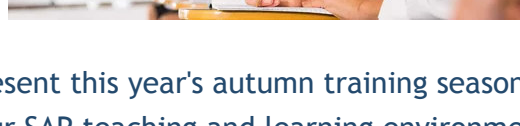

We hope you enjoy reading and, as always, look forward to your constructive feedback or questions, which you can send at any time to [customer-relations@ucc.ovgu.de](mailto:customer-relations@ucc.ovgu.de).

Kind regards,

Your SAP UCC Magdeburg

14. Nov 25	- <a href="#">SAP Build Apps EN (Afternoon Event)</a>
21. Nov 25	- <a href="#">SAP Integrated Business Planning EN</a>

## New Global Bike 4.3 curriculum now available!

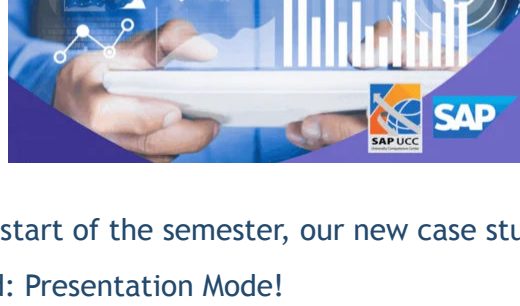

As announced in our last newsletter, the new Global Bike 4.3 curriculum is now available and can be downloaded free of charge. Global Bike 4.3 is based on the latest version of SAP S/4HANA 2023 FPS 3 and offers a number of new features and highlights, which we would like to briefly introduce to you:

- The new H4S4 bridge technology as the successor to SAP HCM: H4S4 no longer supports all known functionalities, e.g. career planning, but employee self-services in the form of time recording and holiday planning can now also be used.
- New integrative case study: connects the Materials Management, Production Planning, and Sales and Distribution modules and conveys a cross-module process flow
- Bug fixes and updates to multiple apps across all case studies

If you would like to change to the new release version or have any questions, please contact [customer-relations@ucc.ovgu.de](mailto:customer-relations@ucc.ovgu.de).

## New SAP Analytics Cloud case study - Presentation Mode

Right on time for the start of the semester, our new case study is available for you in SAP Analytics Cloud: Presentation Mode!

Dive into the world of Global Bike and experience the future of data visualization! In this exclusive case study, you'll design your own Global Bike dashboard using the Story Builder, integrate an interactive geomap, and showcase your results impressively with the new SAC Presentation Mode.

Your highlights:

- Building a model with current geodata
- Creating a modern story including an interactive geomap
- Delivering a professional presentation in the SAC Story Builder Presentation Mode

The highly relevant topic of sustainability is an essential part of the case study. The carbon footprint of bicycle production is analysed, and these insights are directly integrated into your presentation.

We invite you to explore this exciting case study and combine innovation and sustainability in your teaching. If you are interested, please contact [customer-relations@ucc.ovgu.de](mailto:customer-relations@ucc.ovgu.de).

## SAP Model Company Otto Bikes - SAP training system for companies

The UCC has been hosting and supporting learning and teaching environments exclusively for academic institutions based on the fictitious company Global Bike for a long time. Our partner company *in4MD Service GmbH* has developed a model company similar to Global Bike, which can be used to easily teach integrated business processes in companies.

With the *Otto Bikes* training system, companies can independently train their employees in the practical use of SAP technology. In this way, the complexity of SAP S/4HANA is taught in a practical and understandable way for the employees of a company, regardless of whether they are beginners or experienced users. Thanks to the worldwide 24/7 availability, the training courses can be conducted at any time, anywhere. The *Otto Bikes* training system can be used flexibly and can be applied as needed.

If you are interested, please visit [Otto Bikes Model Company](#)

The team at [info@ottobikes-modelcompany.com](mailto:info@ottobikes-modelcompany.com) is looking forward to answer all your questions!

## SAP ACC EMEA Conference 2025 in Athens

The upcoming **SAP Academic Community Conference EMEA 2025** and the corresponding Train-the-Trainer Workshops will be co-hosted by **SAP University Alliances EMEA**, **SAP Hellas S.A.** and the **Academic Partner** for this event, the **Athens University of Economics and Business** in Athens, Greece, from 4 to 6 November, 2025.

SAP UA looks forward to fostering meaningful discussions and driving impactful advancements together with Educators, Researchers and Industry Experts in the SAP Ecosystem and beyond.

Stefan Weidner and Anja Herbst from SAP UCC Magdeburg are looking forward to meeting our international customers there.

Please register [here](#) for this great event.

---

## SAP Academic Community Conference CEE 2025

Our colleagues Anja Herbst, Stefan Weidner, and Viviane Schröder look forward to meet the regional Central and Eastern Europe academic community at this regional SAP ACC in Prague.

Please register [here](#) and join a dynamic community of enthusiastic educators from eleven European countries\*. Connect with experienced members and greet newcomers and exchange your insights, discover compelling success stories, and explore fresh teaching strategies.

**All by integrating SAP solutions into your educational practices.**

\* SAP invites academics from Croatia, the Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, Romania, Slovenia, Slovakia and Ukraine.
